

Lollipops correction:

The quilt actually finishes to approximately 63 x 87.

Final border is cut (sides) 5" x 78 3/4" (in the book it says 87 3/4. The numbers were transposed, and the ends are cut 5" x 63 3/4" (which is correctly stated in the book).

After all three borders are sewn to the quilt the raw top should measure 63 3/4" x 87 3/4". That is about 10" off what is stated in the book!

Steps 11 & 12 should be cut with the rectangles facing wrong side up. The image of the diamond block in step 14 is actually the correct graphic. The image of the block in step 13 is showing a mirror image of the block.

Please contact me for a link to a downloadable copy of the corrected pattern so you will not need to bounce between the book and the corrections page.

The corrections are as follows:

- The numbers for the final border step on page 10 were transposed. Instead of reading 87 3/4" it should read 78 3/4".
- The finished size printed in the book is incorrect. It should approximately 63" x 87".
- Step 11 & 12 should be cut wrong side facing up (*not* right side up).
- Step 13 has been mirror imaged. Please use Block B in step 14 as your reference for graphics on the block.
- Batting requirements will change to fit a 63" x 87" quilt.
- Backing requirements will change to 5 1/8 yards
- Binding will change to 5/8 yd
